

# Preschool!

## Assessment Packet

This assessment packet allows teachers to keep track of what their students know. It helps teachers assess their students on their **numbers, colours, shapes, and alphabet.**

This packet contains four student sheets that can be printed double-sided and either placed in a page protector or laminated for reuse.

Additionally, it includes two answer recording sheets that can also be printed double-sided. It is recommended to administer these assessments to each student between weeks 1 and 3, and then again at the end of the semester to monitor progress.

**Numbers:** Observe each student's ability to identify numbers and record their responses in the 'numbers' section of the Cabbage and Tyler Preschool Assessment.

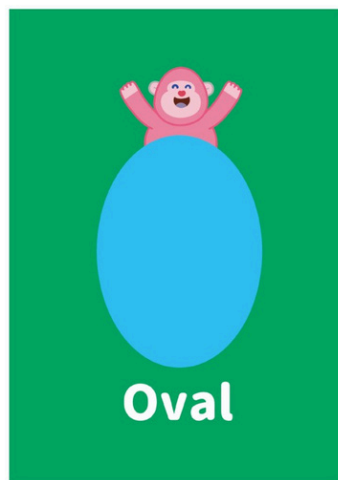

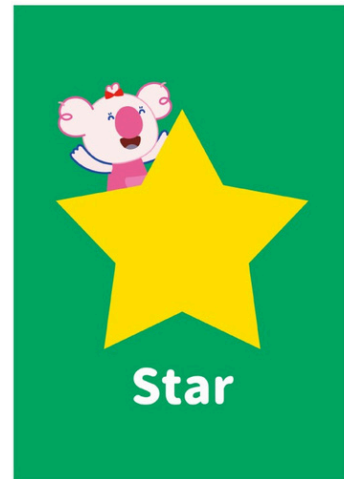

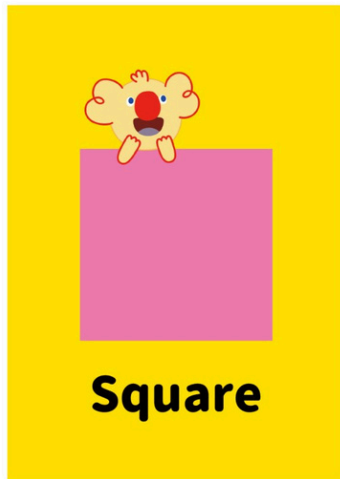

**Colours:** Observe each student's ability to identify colours and record their responses in the 'colours' section of the Cabbage and Tyler Preschool Assessment.

**Letter Sounds:** Observe each student's ability to identify letter sounds and record their responses in the 'letter sounds' section of the Cabbage and Tyler Preschool Assessment.

**Shapes:** Observe each student's ability to identify shapes and record their responses in the 'shapes' section of the Cabbage and Tyler Preschool Assessment.
